

THE ONLINE WORLD: YOUR PRIVACY IS NOT A JOKE!

DIGITAL IDENTITY AND KEEPING PRIVACY

WHAT IS THE DIGITAL IDENTITY?

Our browser history

Everything you look for on the internet leaves a trace.

Personal information

Everyone can search information about you online only with your name.

Everything that identifies us in the online environment.

Activity in social media

Every like, comment, retweet or photo you share leaves a trace, as well as everything you look for on the internet.

Our location

If you have activated the location on your device, you leave your fingerprint everywhere you go.

BUT WHICH ARE THE RULES OF THE GAME ?

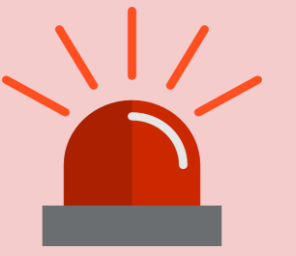

Create strong passwords

Simple passwords are not safe, use numbers, letters, capitals and symbols.

Use different passwords

If you always use the same password someone could enter to your accounts straightforward.

Unknown faces are not friends

Don't accept strangers in your social media.

Think before sharing

Think twice about what you share and why, because that will be public.

Private browsing

Use the private option of your browser so there is no trace of the sites you search, cookies you accept, etc.

Avoid sharing personal information

To keep your security, do not share your personal data such as your ID, address, phone number..

TIPS TO KEEP YOUR PRIVACY

WELL DONE,
YOU ARE SAFE!
