

# THINK BEFORE SHARING

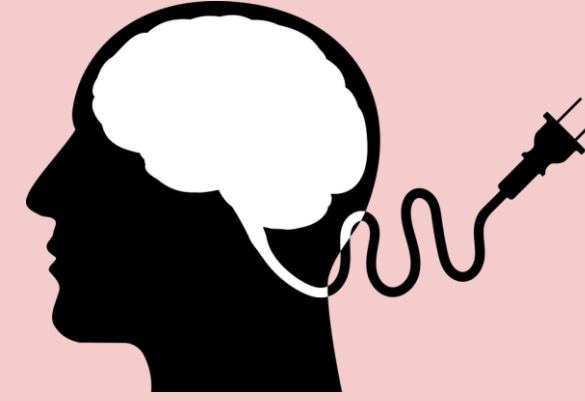

## SEXTING

*Act of sending sexually explicit text messages, images or videos, usually by cellphone. Specially dangerous if it's done by kids or teenagers to strangers.*

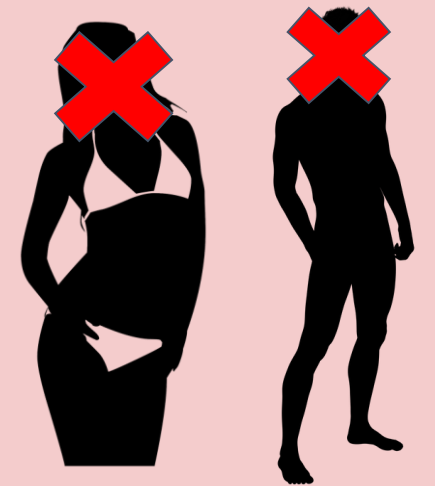

### Advices for who's sending

You have to be sure of what you are doing and to who you are sending the message.

It is recommended to encrypt the images.

You have to take into account what you are showing (you are less exposed if you don't show your face in the images).

Don't do it if you feel forced, do it if you want to.

### Advices for who's receiving

Erase the images and the videos.  
Never spread it.

If you receive an image or video without the consent of the other person, tell it to an adult.

### Consequences

The images and the videos can arrive to a stranger and they can go public.
